

25 February 2010 – Press release

Publication of GEOS 2010 Training Catalogue

To secure peace of mind, safety and security orientation and training sessions for personnel have become a priority for both corporations and organisations.

This explains why GEOS has decided to transmit its know-how with over 40 training courses that cover a wide range of subjects such as crisis management and communications, data protection, maritime security and safety.

Promoting an effective security culture

The capabilities of GEOS experts are detailed in the following training courses, and each course is attached to a specific department of the Group. Our training courses combine cutting-edge teaching methods with a pragmatic approach, to allow trainees assimilate knowledge and different aspects of security management perfectly.

Sharing this knowledge and expertise with you involves incorporating your needs to better transmit our skills and to develop together an effective corporate security culture: this is a core mission of the experts of the GEOS Group.

About GEOS

GEOS is an international group, and the leading risk management and prevention provider in continental Europe.

The Group delivers operational support to clients operating in hostile business environments, with a comprehensive package of solutions ranging from audit, consultancy, assistance to crisis management. GEOS enables its clients to take advantage of business opportunities and to better assess and control both international (political, security, terrorist), and business risk (competition, white collar crime, fraud, counterfeiting).

GEOS in 2010:

480 full-time staff, a turnover of more than 41 million euro in 2009, operations in more than 80 countries, 18 international branches (Algeria, Colombia, Nigeria, Brazil, Mexico, Iraq, Argentina, etc.) and many clients from all sectors of activity.
